Fur Coats Maintain Trim Straight Lines

There are two distinct types in fur coat styles this season, one the conservative "tubular" model and the other the "ruffled" dolmanlike style. Since few women will consider sacrificing slenderness of line the tubular coat maintains a long lead in popularity and is shown here in a striped fur with fox collar, cuffs and banding.

Tardy Reparation
The Middlesex (Eng.) hospital received for its sale, held to swell the reconstruction fund, a gift from northern Rhodesia. The gift is an elephant's tail, inscribed: "The brush of an old elephant bull who, during a century or more of life, indicated vast damage on native crops. He now offers his tail as a trifling help to suffering humanity in reparation."
Brass Dishes Suspected
Due to the prevalence of certain diseases among the inhabitants of Korea, a study is being made of the eating and cooking utensils used in that country. It has already been discovered that the utensils are largely brass and certain diseases which seem to be unusually common there have a relation to brass and copper.

Sunday School Lesson

(By REV. P. E. FITEWATER, D.D., Dean of Div. of Sunday School, Western Institute of Chicago.)
(In 1918, Western Newspaper Union)

Lesson for September 28
REVIEW—EARLY LEADERS OF ISRAEL

GOLDEN TEXT—Let us run with patience the race that is before us, looking unto Jesus, the author and finisher of our faith.—Heb. 12:1, 2.
PRIMARY TOPIC—Favorite Stories of the Quarter.
JUNIOR TOPIC—Stories of the Leaders of Israel.
INTERMEDIATE AND SENIOR TOPIC—Striking Incidents of the Quarter.
YOUNG PEOPLE AND ADULT TOPIC—The Main Teachings of the Quarter.

It is strange that the lesson committee should have selected the title "Early Leaders of Israel" when only Moses appears. A better title would have been "Moses, the Leader of Israel." In such a title consideration should be given to Moses' life, character and teaching. Indeed, a good method of review would be to use this plan for the quarter's lessons. Another method of review would be to give a synthetic view of the book of Exodus, since all the lessons of the quarter are taken from that book. However, for the senior and adult classes the best method will be to recall the principal fact and then state the leading lesson of each Sunday's lesson of the quarter. To aid in this, the following suggestions are given:

Lesson for July 4.
When the time drew nigh for God to deliver His chosen people He caused them to multiply greatly. Envy and alarm incited the new king to institute measures to check Israel's increase. The attempt to carry measures out only displayed their futility but brought to be sheltered and nurtured in the king's palace the very one who later upset Pharaoh's throne.

Lesson for July 11.
When Moses was born, his mother perceived that he was a child of destiny. The king's edict was that every male child should be destroyed, but the faith of his mother moved her to hide him. When no longer able to hide him he was preserved in an ark of bulrushes and taken in charge by Pharaoh's daughter. At the suggestion of Miriam, his mother was called as a nurse. He was educated both at his mother's knee and in the Egyptian court.

Lesson for July 18.
While Moses was keeping Jethro's sheep, God appeared to him in a burning bush and commissioned him as deliverer of His people. Moses faltered but God patiently heard and met his difficulties.

Lesson for July 25.
In memory of the great deliverance of Israel from bondage, the passover was instituted. All who were under the blood were saved from the destroying angel.

Lesson for August 1.
God permitted the Israelites to get into straitened circumstances after leaving Egypt, in order to teach them to trust Him and also to lay a snare for the enemy.

Lesson for August 8.
Before going far into the wilderness the people lusted for the fishpots of Egypt. God answered their murmurs by giving them quails and manna to eat. Christ is the true manna sent down from God to man. Those who eat of his bread shall never die.

Lesson for August 15.
Jethro, seeing Moses completely occupied with the judging of Israel, advised that Moses should be to the people Godward and that all the weightier matters should be cared for by him and that suitable men should be appointed to judge the smaller matters. God's work should be carefully organized so as to relieve his ministers of unnecessary burden.

Lesson for August 22.
To love God with all the heart, soul, strength and mind is the fulfillment of the first four commandments of the Decalogue.

Lesson for August 29.
Loving our neighbor as we love our selves is the fulfillment of the last six commandments of the Decalogue. Supreme love to God and love to our fellowman as we love ourselves is the sum total of human duty.

Lesson for September 5.
God through Christ dwells in the midst of His people—just as He did in the midst of Israel in the tabernacle.

Lesson for September 12.
In carrying on of God's work all should offer willingly such gifts as they have.

Lesson for September 19.
Disobedience to God's laws always brings calamities, while obedience to God's law is always accompanied with blessings.

Our Assignments

God never gave man a thing to do, concerning which it were irrelevant to ponder how the Son of God would have done it.—G. MacDonald.

A Prayer

Father, we thank Thee for Thy tender mercy and Thy loving kindness shown us in so many ways.

The Humble Saint

A humble saint looks most like a citizen of heaven.—Eckers.

Commercial Begining

One of the first causes of British overseas trade is said to have been the exchange of native wool for herds caught in the battle sea.

Exiles Great Church Folk
Practically every adult Eskimo living in the region of Point Barrow, Alaska, is a member of the church.

Fail Winter Suits

Here is one of those trim tailored suits, which might be classed as severe, if it were not developed in a smart checked woolen fabric that makes the name inappropriate. These checks are developed in suits with double-breasted coats bound with silk braid and worn with skirts having groups of plaits at the side.

Cold Weather Coats for the School Girl

Where warmth is the first essential in coats for school or general wear the cozy model illustrated here is recommended. It is distinctly a cold-weather coat with a convertible collar that will protect much of the face and odd, capacious pockets.

Price for Philatelists

An error in the printing of an Argentine stamp of 1939 resulted in the sale of a 5 pesos black and brown orange for \$102 (about \$500) at an auction in London. The defect is that the center has been inverted.

This Careless Age

The case of the San Francisco girl who, three hours after she had been married a second time, remembered she already had a husband, is another evidence of what a careless age this is.—Buffalo Courier and Express.

Classified Brain Food

A medical treatise 400 years old, found recently in Strasburg, Germany, classified as brain food: Fried fowl, fresh poached eggs (not boiled, fried or scrambled), apples, quinces, hazelnuts and red wine.
